

SECTION E

INSPECTION AND ACCEPTANCE

Section E of the IDIQ Basic Contract is incorporated by reference with the exception of the clauses pertaining to fixed-price contracts.

1.0 Inspection

- A. The Contractor may, if requested by the DCOR, accompany the DCOR or Government inspectors during the final inspection to ensure that the work has been completed in accordance with all of the task order requirements
- B. If the Government does not issue a final acceptance, a written punch-list will be made of those items or conditions not being approved or accepted under the contract. The Contracting Officer may provide this list to the Contractor and the Contractor will be given an opportunity to correct within the time frame identified by the Contracting Officer and/or in accordance with the inspection clauses of the contract.

2.0 Acceptance

Additionally, before final acceptance by the Government can occur, the Contractor shall have decontaminated and/or removed all equipment, excess materials, and supplies from the work area. The DCO's final acceptance will not be issued until all work is accomplished under this task order, including the requirements of section H 900 and "Deliverables" in Section J, are accepted by the DCO.
